

Visit to the Recycling Centre in Bodmin

We have been given the opportunity to visit the recycling centre in Bodmin on June 20th, at 10.30 am. The visit gives us a great chance to see how the items that we recycle are dealt with, and see the facility in action. The visit will start with tea or coffee, and a short film about recycling in general and why it is so important to do as much as we can. That will be followed by a tour of the site to see how the operation works. Plenty of time for questions too!

On leaving the site we have the chance to walk 100 metres or so to visit Resource, the shop that sells goods that have been rescued and restored after being thrown out at the waste tips. This includes furniture and electrical items, and other household goods.

There is good parking at the recycling facility, and easy access. Please call me on 230497 to book a place, or email me, Janey@jcomber.plus.com
