Present Cllr Hockin, Cllr Ferrett, Cllr Brewer, Cllr Simmonds, Cllr Rodda, Cllr Jarvis, Cllr Edwards, CCllr Jordan

15.01 Apologies – Cllr Munden and Cllr Bright

15.02 Declarations of Interest – Cllr Brewer declared an interest in planning application PA18/10034

15.03 Public Participation – 25 members of the public present

Cormac updated the meeting on the New Road closure there original 16 week programme they now expect to, subject to unforeseen issues, complete the works in 12 weeks. Individuals raised concern that the no entry signs on Forrabury Hill are being ignored and vehicles are still coming up Old Road. Cormac advised that if number plates can be identified to them they would pass the details to the police. Concern was also raised regarding the general signage of the diversion and road closed signs. A request for traffic lights through the road closure was deemed by Cormac as not feasible due to the close proximity of the workforce and the large plant required. Mr Yeoman updated the council on the current situation regarding the works at Lewarne and ongoing problem with the boiler noise and fumes from the flue. He asked the council to reinforce the 3 month timeframe it had asked Cornwall Council to have the issue resolved. The agent for planning application PA19/00501 advised the ANOB had concerns over the roof and amended plans should be available next week.

One member spoke of the white carrier bag stuck in a tree in the harbour area and blowing about. Also expressed concern over PA18/10034 by taking down the garage and improvements to the access and the impact on the area.

One member spoke re the Parish Councillors passion and thanked them for giving up their time to do the job. They stressed the need for the council to refocus on the job going forward.

Members spoke collectively re planning application PA18/10034 stating this would have a detrimental effect on the area, the resurfacing of no existing surface, rainwater runoff and access to the small fields has been used by the current owner and previous owners by tractor successfully.

15.04a Planning - To consider planning applications received

To consider a review of previous decision regarding application PA17/10731 due to additional information subsequently becoming available.

Cllr Simmonds spoke regarding the heritage impact report in which it referred to the property being damp, is of modest significant value, works have harmed the property which are irreversible and the external appearance has changed due to the new pipework. It failed to mention the impact of the new boiler and flue on neighbouring properties. His view was the damp is due to lack of any long term occupation, the property was a good example of Victorian architecture and the works already undertaken can be reversed. Cllr Simmonds proposed the council support Mr Yeoman's objections, the so called irreversible damage can be restored and the HIR report contradicts itself, with no independent reports on impact or noise/pollution. Seconded by Cllr Jarvis. All in favour.
